Experience

Frontend Developer Internship | Certificate August 2023 - Current Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Projects

Netflix Clone | Website | GitHub
- Uses TMDB's API to iterate through results to display in a fashion meant to mimick Netflix's homepage. Has sign in and sign up pages that uses Firebase for authentication.

Youtube Clone | Website | GitHub
- Mimicks the layout that is used for the Youtube landing page. Includes a scrolling top bar and side menu that can be collapsed.

Movie Search | Website | GitHub
- Using OMDB's API to pull queried results and display them. Sort by date functionality and more details available when clicking on a given movie that was found in the results.

Education

Frontend Developer Bootcamp Mar 2022 – Sep 2022 Frontend Simplified
